PEACHES
TIGRE PACKING
COMPANY.

At this season of the year when fresh fruit is unobtainable except at prohibitive prices, you can still procure from your grocer our tinned peaches which are as good as fresh gathered fruit and as cheap as ever. Although there are several so called "Tigre" Brands, ours is the only one bearing the "Tiger" upon it, and this we can guarantee as being of the very best obtainable fruit.
The process of canning renders these peaches more wholesome than fresh fruit, and they are specially recommended for children and invalids.
We do not consider it necessary to quote testimonials, but ask you to do us the favour to obtain the opinion of your medical man.

TELEGRAMS

(via Galveston.)

London 5th.—Davitt has written a letter to the *Times* protesting against the insinuation that he planned the explosion in Dublin.

London, 6th—Influenza is spreading in Great Britain. In London alone 19 persons have died of it during the past week.

Cairo, 7th—The Khedive of Egypt has just died.

Brussels 5th.—The alarming reports about King Leopold's health are devoid of foundation.

London 8th.—There are said to be 5,000 persons in the city suffering from influenza.

St. Petersburg, 8th—The Czarina is unwell.

Vienna, 8th—Prince Frederick of Saxe Weimar is dead.

Tangier 8th.—Advices to the Foreign Office report that 400 cavalry, two days on the march, and 1,000 infantry from Fez have completely routed the rebels.

Berlin, 8th—The eminent philologist Ernest Brucke, is dead.

Vienna, 8th—Henry Irving has accidentally wounded himself by a gun-shot.

THE NEW ZOLLVEREIN.

Hardly two years ago it was asserted by the advocates of Protection that the world had found out the errors of Free Trade, and that the policy of Cobden was on its last legs. All the most enlightened countries, they said, with the solitary exception of G. Britain, had proclaimed the principles of Protection.

Meantime the friends of Free Trade were undismayed, and looked with pity and compassion on the insane efforts of France, Germany, Austria, Italy and the U. States to erect barriers against foreign trade, as if by so doing they hoped to improve their own internal condition. Well might the economist exclaim with the holy Psalmist——

"Quare fremuerunt gentes, et populi meditati sunt inania?"

And what is the result after two years of mad Protection? That the tariffs are unbearable, that the whole commerce of Europe is thrown out of gear, and that it is necessary to have a sweeping change. Hence the new Zollverein, concluded between Germany, Austria, Hungary, Italy, Switzerland and Belgium, to the exclusion of the rest of Europe. The Kingdoms forming this Bund or Union comprise a population of 130 millions, who are to enjoy a kind of Free Trade among themselves, and to shut out as far as possible the products of the rest of mankind.

The proposed Union is the clearest condemnation of Protection theories. It is found that none of the above six nations can get on advantageously without international exchange of products with its neighbors, which is precisely the principle on which Free Trade is based. In due time we may reasonably hope that France, Russia, Sweden, Holland and Spain will join the Zollverein, and then Free Trade will have been established all over the Continent.

America may, sooner or later, establish a similar Union from Hudson's Bay to Tierra del Fuego, and then the world will consist of three great commercial systems. 1st. Great Britain, trading with the whole of mankind, and admitting free the products of every clime. 2nd. The European Continent, with international Free Trade from North Cape to the Bosphorus, levying duties on imports from G. Britain and America. 3rd. North and South America, exchanging all the products of the New World, and imposing duties on everything from outside.

What will be the result of such a state of things? That commerce will receive such an impulse as to convince everybody that Free Trade is the best policy, and that Great Britain and her Colonies will progress every year, because we have the carrying-trade of the world in our hands.

Protection has been tried, and found wanting. It was principally directed against Great Britain, but so far failed in its object that British commerce in 1891 surpassed anything on record in the annals of mankind.

But for the unwise policy begun in Buenos Ayres by Dr. Plaza in 1876, and carried on with pernicious blindness by all his successors, the intensity of the present crisis would be much less, the trade more prosperous. It is the avowed purpose of Pellegrini, Lopez and men of their benighted school to depress the import-trade, if possible to zero. They have yet to learn that commerce is essentially reciprocal, and that if every nation were to labor to exclude the products of others it would be practically an end to all trade.

As a man stands better on two legs than on one a nation is more prosperous with imports and exports than if its trade were limited to either. Nature has so ordered the industries and products of various countries as to make interchange not only profitable but indispensable, unless we would fall back to the barbarous system of Paraguay under Francia and Lopez. This fact is now so evident to the legislators of Germany, Austria, Hungary, Italy, Switzerland and Belgium that they frankly exclaim "Peccavimus" and endeavor in a partial manner to adopt the beneficent and Heaven—ordained principles of an interchange of commerce.

OUR LONDON LETTER.

FINANCIAL NOTES.

(From our own Correspondent.)

Dec. 12th

London and River Plate Bank shares went up 1, on the strength of Mr. Drabble's hopeful speech at the meeting of the shareholders. Mr. Drabble seemed to have faith in the productive powers of the Republic, and agreed with the President that nothing was to be done in the way of solving the financial problems before us with "bolsa axioms and rhetorical periods." He concluded by observing that he thought with the statement just laid before them in regard to the bank, the shareholders would be satisfied as to the soundness of its position. The meeting seemed to take that view and adopted the report without further question.

* * *

The city article of the *Times* of 10th inst says; "Dissatisfaction with the Uruguayan conversion scheme is not it appears confined to the Unified Bondholders. We are informed that legal proceedings have been commenced on behalf of several of the leading Trust Companies, interested as railway shareholders in Uruguay, to restrain the railway directors from becoming parties to the proposed conversion scheme, which provides for the permanent reduction of the railway guarantee by the Uruguay Government, and the surrender of the securities at present hypothecated."

* * *

The *Times* also notices the report of the Trustees of the Buenos Ayres Catalinas Docks debenture holders. The report states that owing to the diversion of the business of the docks, the income has barely sufficed to meet the expenditure. It is proposed to utilise the sheds morigaged to the debenture holders at the north end of the city, and also other property at the south end conveniently situated, as a depot near the entrance to the Madero docks.

You will be weary of the discussion in the *Financial News* on the Uruguay Conversion scheme between Mr. Procter and Mr. O'Leary, secretary of the Foreign Bondholders Association. I prefer sending you another letter from "Antwerp." The Editor of the *Financial News* seems tickled at the innocence of Uruguay bondholders troubling Messrs. Baring Brothers to know why certain dividends due on the 1st inst. have not been paid.

The *Financial News* thinks that Messrs. Barings would naturally reply: "Gentlemen, we issued the loan and pocketed our commission and do not consider that we are responsible for ulterior proceedings."

* * *

The following is from the *Times*:

Messrs. Mee, Billing and Co. write:—"In response to our circular, noticed in your issue of November 26, suggesting that application be made to the Council of Foreign Bondholders to convene a meeting of bondholders interested in the Buenos Ayres Six per Cent Loan of 1883, favourable replies have been received from a large and influential body of holders, to the number of 232, and representing over £200,000 of the issue. In consequence of the bonds being to bearer some difficulty and delay has been experienced in ascertaining the names and addresses of holders, but copies of the circular may be had on application at our offices, 9, Great St. Helen's, London, E.C., by any bondholder desirous of obtaining the same."

* * *

The *Times* of to-day says: "With reference to the meeting of the holders of the Uruguayan Five per cent bonds called for the 7th inst. the committee give further notice that bondholders who have not previously deposited or registered their bonds with Messrs Brown, Janson and Company will be required to produce a bond at the door or a banker's certificate of bonds held for the bearer as evidence of their "bona fides" and that proxy forms may be obtained of the committee for the use of bondholders unable to attend the meeting. The committee add that they have received telegraphic advice that a meeting of Belgian bondholders has just been held in Antwerp at which the scheme adopted by the Council of Foreign Bondholders was unanimously rejected. An Antwerp committee was appointed to assist at the London meeting and represent continental holders. We understand that Lord Basing as Chairman of the Mercantile Investment and General Trust Company (Limited) has invited representatives of the boards of the other large Investments Trusts to attend a meeting on Monday the 21st inst. to take concerted action to protect their interests in regard to the proposed conversion of the public debt and railway guarantees of the Republic of Uruguay.

The *Financial News* of this morning says that in face of the formidable opposition here and in Montevideo to the Uruguayan Conversion Scheme, it thinks it would be extremely unwise and risky on the part of the bondholders to deposit their bonds with Messrs. Glyn Mills and Company.

* * *

The *Times* understands that the shareholders of the South American and Mexican Company will be asked at the meeting convened for Friday next to approve the arrangement which the directors have made for securing the commercial business of Messrs C. de Murrieta and Company. The fixed and secured liabilities of the firm will be taken over by a new company which will acquire the whole of the assets. By this arrangement the debenture holders of Messrs C. de Murrieta and Company have, it is stated, been fully safeguarded.

The people of Manchester appear to be thoroughly alarmed by the disclosures which have been made in connection with the Ship Canal. Not to speak of the millions privately subscribed, the city is committed to an expenditure of £3,000,000, and it is now clear that the corporation will have to find a great deal more. The board have expressed their willingness to give the corporation more control over the spending department, but the number of directors is fixed by Parliament, and cannot be altered without a fresh bill. It has, however, been suggested that some of the old members, including the chairman, Lord Egerton of Tatton, should resign and give place to leading shareholders who are in sympathy with the corporation. A Manchester correspondent writes:—"In one respect the present crisis in the affairs of the Ship Canal is the worst of the long series of troubles which have beset this great enterprise. Until now the directors have always had the goodwill not only of the shareholders but of the general public. Nothing excites sympathy so readily as pluck, and the directors proved over and over again that they were not deficient in this great English virtue. They had to fight every inch of the way in the early stages of the undertaking, and Manchester came to be proud of men who did not know when they were beaten. All this for the time is forgotten. The shareholders, or at any rate a large number of them, are in open revolt. All sorts of charges are made against the directors. The resignation of some of their number is loudly demanded, and there is talk of forming associations for the protection of shareholders' interests. It seems clear that the directors are better fighters than administrators. They have had an opportunity to clear themselves of the charges brought against them of wasteful expenditure and insufficient supervision of the work, and there can hardly be two opinions that their explanation is not satisfactory."

LATEST FROM RIO.

Rio, Dec. 29

It is stated that the *Jornal do Brazil* has been sold to Conde de Figueiredo.

Mr. J. S. Lambley, manager of the London and River Plate Bank, Limited, in this city leaves for England to-day on a brief visit.

The census returns give the population of this city as 515,559, which in our opinion is more than the city really contains.

The suburban station of Riachuelo was the scene of a fight yesterday evening between some railway employes and a police force. The latter had arrested three brakemen for alleged insults to the "inspector de quarteirao" (a meddlesome police official) and had them locked up in the police station. The friends of the prisoners rallied and took the station by assault. A police force sent from the city was met at the railway station by the rioters and a slight skirmish ensued, resulting in three policemen wounded. The rioters then dispersed and all is now quiet.

We deeply regret to record the death of Mr. A. M. Edmondson, manager of the Brazilian Coal Co., which was caused by an apoplectic attaek at his rooms on Rua Humayta on the afternoon of the 27th inst. He had attended the services at the English Church and had retired to his room after lunching and taking a bath. When called for dinner, he was found dead on his bed, having expired apparently immediately after retiring to his room. Mr. Edmondson was a popular and highly esteemed member of our small English colony, and his sudden death will be deeply and universally felt.

The regulations for joint-stock companies, issued on Oct. 20th, were repealed on the 23rd inst. The grounds for repealing those regulations are that the government, in issuing them exceeded the limits of its constitutional powers.

Brazilian 1889 bonds were quoted at 60¼ in London yesterday.

In the state of Amazonas the revenue collected for the state treasury amounted to 557,690$ in the month of September and to 418,209$ in that of October.

The municipal council of Juiz de Fóra has decided not to collect municipal taxes for 1892. The council thinks that these taxes should be collected by a municipal government elected by the people.

At an extraordinary meeting of the British Bank of South America on the 17th ult. to consider the proposition to re-establish agencies in Brazil Mr. Carrington justified the step in the following terms: "They had an opportunity offered of resuming their former position in Brazil under most advantageous conditions. They regained their right by paying back a comparatively small part of what they had received for the good will, and they could replace what capital was required at the most favourable rate of exchange. He might be met with the inquiry, did not the directors think it very unwise to recommence business in Brazil when a revolution had just broken out, the consequence of which no one could foresee, but he replied 'no,' always provided that due caution was observed. It must not be lost sight of, in the midst of very much to cause great anxiety, that Brazil had great resources, the exports of coffee alone during the present season being valued at 25 millions sterling, while the imports were proportionately large."—*Rio News.*

PROVINCIAL NEWS.

Nothing very fresh from up country yesterday. The heat is so great up there that people don't take the slightest interest in anything except cold shower baths, which are warmly recommended for politicians. In the enchanted city of La Plata the more peaceful residents are becoming quite alarmed at the war-like preparations which have now been going on for some time. Cases of Mauser rifles are being forwarded daily to different parts of the Province. At least so says the active correspondent of an esteemed morning contemporary. The only cool, quiet and sequestered spot in the Province at this moment is Mar del Plata. Crowds of the "haute volée" are peacefully enjoying themselves there, disporting with the waves or pic nicking on the coast. Mar del Plata is quite improved this year. A sort of esplanade has been built by subscription. In fact, most of the improvements there have been carried out by voluntary subscription.

Dr. Galvez, the ex-Governor of Santa Fé, seems to have made a "faux pas" up there, to judge by our Rosario exchanges. He is busy correcting statements which ubiquitous reporters put in his mouth. In the meantime there are very alarming rumors in Rosario. The other night the good people there believed a revolution had broken out. But of course nothing occurred.

We note that the new grain tax levied by the Santa Fe Government only yielded $185,000. And yet there is a good deal of activity in the wheat market. There are no less than 30 vessels at Rosario waiting to load wheat for Europe.

The news from the inundated districts of Cordoba is that although the rivers have gone back to their beds, the floods continue and a terrible deal of misery prevails. It is calculated that agriculture in the inundated districts has received a fatal blow, all the crops being lost. The losses must be very great, and this circumstance should open the eyes of the Government to the necessity of building "obras de defensa" to prevent future floods.

Our Salta exchanges state that if the authorities do not bestir themselves there will be not a settler left on the frontier, owing to the murders and other outrages perpetrated by Indian marauders, and deserters from the army. This is an old story. Some time ago we called attention to these frontier-outrages, but nothing has been done and the lamentable consequence will be that the settlers of Dragones, India Muerta, Tuscai and other places near Oran will club together and take the law into their own hands.

Advices from Tucuman report the murder of an Italian "almacenero," named Moro. Two men called upon him early on Sunday morning and informed him they wanted to pay up an account they owed him. The unsuspecting Italian asked the men in, and the two ruffians immediately killed him, and then sacked the house.

LONDON AND RIVER PLATE BANK, LIMITED.

The twenty-ninth ordinary meeting of the shareholders of the bank was held on the 18th inst., at the City Terminus Hotel, E.C., Mr. G. W. Drabble (chairman of the company) presiding.

The Secretary (Mr. A. Temple) having read the notice convening the meeting.

The Chairman said:—After a year of almost incessant anxiety, it is a relief to us to be able to distribute a report which will, I think, meet with your entire approval. If you have compared this balance-sheet with that presented last year, you will have found the total is very considerably less than that then presented. Of course, it must be concluded that a great deal of that is the result of the contraction of trade caused by the severe financial crisis through which the Argentine has passed, and which has also affected the neighbouring State of Uruguay. But it is not entirely so, for whereas last year we concluded our conversion of dollars into sterling at the price of 19·8d. per dollar, this year, on account of the depreciation of currency, we have had to do so at the price of 11.4 d. The par value, you will doubtless recollect, is 48. This affects all the bank's working accounts in the Buenos Ayres branch and in the Rosario branch, and I find the difference from that cause only sums up to something like $2,000,000 sterling. Of course both sides are effected. Cash would show £800,000 more, and bills receivable £1,200,000 more; on the other hand, the current accounts and deposits would be equally affected to the extent of $2,000,000.

We have been able to write down the amount that we have invested in what is called the popular loan, and we have written down the figures below their to-day's value, as we thought it safer so to do. We have also written off completely the losses attending the robbery which took place in Buenos Ayres. We have made special provision, as stated in the report, for sundry accounts that are unfavourably affected.

Do not let us forget, gentlemen, that with this balance which we have worked into our business, we are able to show to you to-day a share capital of £900,000, against a share capital in 1887 of £600,000. We are able to show you to day that the amount that we are going to pass to the reserve fund—bringing that fund up to £750,000—is perfectly clear, and that we have made every provision that we think necessary; and if you make a simple calculation, you will find that those two amounts added together represent a value per share of £27. We recommend to you that the distribution should be at the rate of 12s. 6d. per share, requiring £37,500, and making, with the previous distribution, a dividend of 10 per cent. for the year on the respective capitals at the time the distributions were made. We recommend that £50,000 should be passed to the reserve fund, raising it to £750,000.

I wish to ask you to join with us in our vote of thanks to Mr. Anderson, who, you will recollect, went for the sole purpose of making arrangements for the purchase of the Carabassa Bank. Sacrificing his own personal wishes, he has remained, at our particular request, to assist our managers at the River Plate during the very arduous and trying times through which we have passed. Mr. Anderson is still there, and I hope that until we see our way perfectly clear he will be induced to remain. It is most important that he should feel assured of our goodwill, and of yours also.

Thanks are due to Mr. Thurburn for his careful management at Montevideo.

It is satisfactory to find, although the financial crisis has been most severe, and is still not over, that the productive powers of the country have not fallen off, but are increased. Upon that we base our hopes, and not upon anything else, and if we are assured of peace and order, I feel that the recuperative powers of those countries would soon lead to a great improvement in their all-round condition. But we must not lose sight of one disturbing element, and that is the presidential election in the Argentine. I think you all very likely know that politics there are in a very excited state, and I myself feel, as this election will not take place until the middle of next year, that, until we see that safely over, we cannot feel that entire confidence, which otherwise we should feel. But let us hope that things will calm down the same as in Uruguay and in Brazil, and if so, I cannot but think we shall soon see an improvement. Gentlemen, with these statements I beg to move: "That the report and accounts be received, adopted, and entered on the minutes." (Applause.)

The election of Mr E. Herdman to the board was confirmed, and on the motion of the Chairman, seconded by Mr. Hemery, the retiring directors (Messrs. Anderson, Duffield, and Howden) were re-elected.

PARIS LETTER.

(From our own Correspondent)

Nov. 30th.

The Peace Congress at Rome does not appear to have scored any practical success. Such a gathering only marks time among fads and sentimentalists. War is a human inheritance say, as origin-al sin, that will only disappear with the human family itself. The delegates do not appear to represent any influential section of society save perhaps themselves. Comte de Maillefeu belongs to one of the most ancient families of France; he is from Abbeville; is a deputy, and belonged to the navy; he is a very advanced republican; his declaration in favor of Italian unity and his aspiration to see the Vatican demolished are not sympathetic paths to promote general peace. Peace makers can only exist by leaving unsaid everything controversial. Opening unclosed wounds is not the best overture for fraternal greetings.

No peace-pleadings will bring to an end the incessant augmentations of the bloated armament of Europe. Opinion is forced to recognize that only the outbreak of the pending general war will clear the air and solve provocative complications. They are war-preparations that dominate, not those of peace.

There is fermentation of a disquieting character in the republican party. The unity that kept all its shades together in presence of the conglomerate Boulangist conspiracy seems to be flittering away. M. Clemenceau will have no more of it; he states that he and his friends have only been exploited by the Government to keep the latter in office, and that M. de Freycinet has broken his promises respecting the carrying out of Labor reforms. All this does not mean that the Cabinet will be immediately overthrown, but that it must—"memento mori." If the split widens and deepens the Monarchists, as of old, will become masters of the parliamentary situation, and ministerial stability will become a by-word.

Then there is a section of the republicans, whose mouthpiece is Deputy Lockroy, that feel hurt and annoyed at being continually warned not to do anything that would imperil the Cabinet, as that would react on the relations existing between Russia and France. M. Lockroy and his friends do not want to know the contents of any treaty France and Russia may have signed, but to be officially informed has any treaty been signed at all. Should it turn out that no document has been executed of an offensive and defensive nature, that will be a bitter, a cruel disappointment for the French, after all their enthusiasm.

Up to the present no lottery, no charity theatrical or other representation has been mentioned to come to the relief of the famishing Russian peasants. The dire situation of the latter surpasses all the records hitherto known of national famines. The sufferers go mad. It is not exactly that the Empire is destitute of good supplies, but the transport of these lacks facilities, and the organization for the relief is as primitive as it is defective. Human life in Russia never was considered as of superlative value. Happily the Czar has been engaged banking his loan of 400 million francs; it is to be hoped that sum will first be employed to fill the empty stomachs of his subjects rather than on military equipments.

There are hopes that the Cardinal Lavigerie will in time be restored to good health and active work. His role of political pacificator is far from being exhausted. In urging his brother bishops to officially rally to the present constitution, the most that he has been condemned for is that the evolution was premature. The majority of the episcopal bench are one with the Cardinal in rendering to Cæsar the things that are Cæsar's, but they have not been able to induce the lower clergy to follow them as compactly as to be wished. The clergy desire that the Government do observe a strict impartiality towards them, and protect them from such local mayors as are anti-clerical, materialists and free-masons. Now, the mayors are elected by their municipal councils, and except in presence of grave disqualifications, the government rarely exercises its veto on the choice. It must be confessed also, that the local clergy are not a little under the screw of the rich families in their locality.

Considerable difficulty is expected when France commences to negotiate reciprocal treaties on the basis of the new tariff. Many countries are compelled by their financial wants to impose new or augment old Custom-Tariffs. Spain is in a very abnormal situation; her wines are locked out of France, not only by the high tariff but by the new railway rates. She threatens France with reprisals; now the latter are not the elements calculated to promote peace. A nation's amity and esteem will follow its commerce. There would be nothing extraordinary that if Germany negotiated a favourable treaty with Spain, the latter's adhesion to the triple alliance would not become an impossibility. That would be a thorn in the flank of France in case of a Continental war. America has secured the admission of her pork, on the same duty that Italy and Germany strike the hog products of uncle Sam, namely 25 fr. per 220 lbs.

The *Orleans* state that the Duc d'Orleans must abdicate his "rights" in favor of Prince Henri d'Orleans—his cousin, and whose sister he jilted.

CORDOBA AND ROSARIO RAILWAY.

The third general meeting was held at Winchester House, Mr. Forwood, M. P., presiding.

The Chairman said: Gentlemen, it now becomes my duty to move the adoption of the report and accounts which have been submitted to you. I have very little to add to the particulars that are given in the report, except to say this, that on the 15th of last month the contractors were able to run locomotives from one end of line to the other. The shareholders will be aware of the fact that this railway was largely promoted for the purpose of being the connection between the port of Rosario and a very large network of railways in the northern part of the province, representing something like 2,000 miles without a break of gauge, down to Rosario. It was of very great importance, if the traffic was to be properly developed, that we should have the best shipping facilities at Rosario that can be obtained. Therefore, when the proposal was put before us from Rosario for the purchase of the property called Embarcaderos, we thought it would be in the best interests of the company that we should make that purchase, as it would largely increase the facilities which we could offer for the quick transit of produce and the quick carriage of merchandise up to Rosario. As you will see by the report, we have agreed to purchase that property at a cost of £40,000, of which we pay £25,000 in cash, £7,500 next year, and £7,500 in the following year.

The results it is impossible for me at present to forecast. We tap a very large and valuable district of land that produces a large quantity of grain, principally wheat. It has been the custom of those who presided over meetings connected with the Argentine to give some idea of their own opinions as to what the future of that country will be. Well, I feel quite unable to give an opinion. I do think that things could not have been worse than they have been, and I hope when political matters become settled, as I hope they will be with the election of the new President, that we shall see a better state of things in that country. Those most closely connected with that country, and who can speak with authority, favour that view. I see, for instance, that the London and River Plate Bank, in their report issued on Saturday, state that commercial affairs are in a sound condition, whilst the latest telegraphic advices are that business is improving. I think that is very satisfactory reading for an institution which is in close touch with the country. I now beg to move: "That the report of the directors and the statement of accounts now presented be, and are hereby, received, approved, and adopted."

Mr. Thomas-Wood (director) seconded the motion.

Mr. Fletcher thought the chairman had neglected to touch upon one of the most important points mentioned in the report, viz., the negotiations now being on with the Cordoba Central Railway with a view to working arrangements with that company.

The Chairman apologised for not having referred to the point. It was true that the Cordoba and Rosario Company were in negotiation with the Cordoba Central Company for the purposes of traffic agreement. The negotiations would be strictly confined to a traffic agreement. The Cordoba and Rosario Company intended to preserve the autonomy of its own line, although some mutual arrangement might be arrived at with the view of saving expenses in both cases.

Mr. Fletcher: Then it is only a matter of freights?

The Chairmann: Yes; a matter of freights.

Mr. Fowler asked, as to the purchase of the property higher up the river, how the money for the purpose was to be provided. Then, as to the proposed working arrangement with the Cordoba Central Railway, which was to undertake the working?

Mr. Fletcher asked whether the Company was at liberty to fix what rates they chose for the traffic of merchandise over its line, or whether the Government were interfering, or would interfere, with any of the arrangements which it was proposed to make.

The Chairman, in replying to the questions addressed to him, said the purchase money for the new property would be provided out of the administration fund which the company would have at its disposal. With regard to the arrangements for traffic, they would be simple arrangements as to the rates of carriage on through produce carried over the two systems of railway—the ordinary arrangements which were made between railway and railway, which form one continuous system, each railway preserving its perfect independence. The new pier that was to be built by the contractor in the place where the canal works were had been provided by the contractors, and had been included in the contract money. As to the rates of railway carriage, they would have to be determined in conjunction with the Executive Power of the State. Negotiations had been carried on between Messrs. Hughes, of the River Plate, and the Government, and there was every reason to suppose that they would be similar to arrangements made with other railways that certain allowances would be made for alterations in the gold rates. No doubt the rates would be settled more in reference to the competition which merchandise could bear than the authoritative rates laid down by the Government.

Mr. Forwood, M. P., and Mr. John Le Lacheur were re-elected to the directorate; and Messrs. Turquand, Bishop and Clarke were reappointed auditors.

Replying to a vote of thanks, the Chairman said that he hoped that the favourable opinions as to the future of the Argentine Republic would be realized. When things looked their blackest they were generally on the turn; and that was now the appearance of the Argentine. The company had the advantage of possessing a good and well-constructed railway, tapping a rich country, and he did not see why the hopes formed when the concern was first promoted should not be realized. The population of the country was increasing, whilst the land grew enormous quantities of produce, which must pass over the railways in order to get into market.

RAILWAY ITEMS.

Mr. Michael Tay, Chief of the Accountant's Office under the National Railway Board, has reported on the petition of the concessionaires of the railway from Lujan to Melincue for one year's extension of time to begin the works. Mr. Tay advises Dr. Araoz to grant the petition, and we understand that the Chairman of the N. R. Board, in view of the fact that the concern does not enjoy a guarantee, will accede to the petition.

The Asesor Letrado of the Board of Public Works has just reported on a question between that Board and the National Railway Board. The Board of Public Works had ordered the Central Argentine to put up lights all along the line. The N. R. Board maintained that the Board had no right to order such a step, which was of an administrative, not a technical nature. The A. L. says that the N. R. Board have misinterpreted the law.

Mr. Benjamin Escalante has been named State Interventor on the Central Northern Railway.

Mr. José Villalonga has been appointed Manager of the Argentine Great Western.

* * *

The frequent fires in the Chilian capital of late are attracting much attention there, as it is strongly suspected that they are not all accidental.

BRITISH AND AMERICAN BENEVOLENT SOCIETY.

A fifth Ladies Branch was inaugurated in the South part of the city on Wednesday the 6th inst, when those present agreed to Mrs. Pakenham's proposal to join with the other branches in offering their assistance to the Committee for the investigation of cases of poverty among those residents in their midst, in this instance including North and South Barracas, Santa Lucia and the Boca, and in bringing the circumstances of those deserving of relief to the notice of the Society. Mrs. Brooking, of Calle General Hornos 1516, kindly undertook the duties of secretary of the district for the first period, and will give information to those interested in the poor. We understand, however, that, until the annual subscriptions for the new year are received, the financial position of the Society will not warrant the granting of assistance except in very extreme cases.

EDITOR'S TABLE.

Again did old Sol fry poor River Plate humanity in its own fat yesterday. Ninety-three Fahrt. was the temperature in the coolest corner of the STANDARD cellar; but on the red hot flags at our office door the Ligurian peones fried onions for their frugal breakfast!! It's a fact. We *saw* it, and heard the frizzling and crackling of the health-giving vegetable. Furthermore, the thermometer at Treina and Croppi's could not stand the blasting temperature, and broke down. Mr. George Michaelsen of 365 Calle Reconquista, importer of the world-famed Ginger Ale and Champagne Cider made by Cochran and Co. of Belfast, saved all our lives by sending us a present of both nectars; and, what he will be still prouder to hear, those of several fair visitors to our office, who would have succumbed but for his kind New Year's Gift being at hand. On the part of the ladies and ourselves we thank him.

The Gold Eagle got his dander up again yesterday and showed his evident displeasure at the hot weather and the still hotter condition of politics, the revolutionary rumours, etc. etc.

The decree suspending the Port Works was issued yesterday. It provides that when the Company is fully paid for the section finished in September, the company be notified that the works must be totally suspended three months after the said notification. Within those three months the works specified in decree of 25th July and by the Public Works Board and Inspectors must be finished, and will be received and paid for on 30th June of this year.

An evening colleague reports some unpleasantness amongst the members of the Health Board. What a pity! But they're used to it.

Carlo's circus maintains all its former popularity with the juvenile public, who patronize it largely, in spite of the killing temperature. The performance is excellent.

At Moron on Thursday evening the gang of navvies who were repairing the line fired a volley of stones at an up train and cut open the head of a second class passenger, who had to be sent to San Roque Hospital when the train reached the Once. What a nice affair.

We are requested to state that there will be no evening service at S. Peter's Flores, to-morrow. The morning service will be taken by the Rev. Pelham Ogle. The morning services at St. John's Church will be conducted by the Rev. Cecil F. Grant Luckman.

We note that some of the financial weeklies in London are still "harping on their daughters", (there are three of the interesting creatures: the Argentine wool clip, the ditto wheat crop, and the remittances of gold from the Big City, for exchange speculations) and wondering how the united efforts of the trio have failed to tackle the Gold Eagle and bring the bird down. By the time we have got through Carnival here and laid aside our masks, our London friends will be better able to judge of the fight between the three ladies in question and the obstinate G. E.

We are requested to announce that Very Rev. Father Fidelis will preach in Holy Cross Church on Sunday evening at 3 o'clock. After the usual ceremony the Papal Benediction will be given. As this is given but seldom in this country it is expected that a very large congregation will assemble.—*Herald.*

Fishing and murdering pigeons are the fashionable pastimes at Mar del Plata. No doubt, the humane Zoos will have something to say about the latter mode of "whiling the happy hours away" at the Argentine Brighton. There is to be a grand cotillon, in which thirty five couples will take part, to-morrow night, in the Bristol Hotel.

There was a demi-semi scare in town on Thursday, about moderately—late dinner hour. The timid wise-acres had heard of "hurrying to and fro" in the Government House and barracks, the "mounting in hot haste" of orderlies, telegraphic messages and all the worn-out tune usual on such occasions. Nevertheless, the beautiful moonlight night passed quietly, except at Palermo, where a few shots were heard, and all the fashionables who were taking the "fresco" there turned as pale as fat bacon and ordered their coachmen back to town at full gallop. The War Minister has ordered the whole garrison to be kept under arms every night until further orders.

At one of the stalls in the Food and Health Exhibition in New York, where the lady visitors received especial attention, a very agreeable young man was put on duty. A wonderfully pretty young woman visited the establishment, and the attendant thoroughly did his business by waiting upon her with alacrity and devotion. When she left two stout, plain, elderly women came up. Said one: "There now; we'll find out whether you can be as polite and generous to us as you was to that pretty young lady that just went out." But, before the Exhibition Adonis had time to reply, the other woman broke in with, "Nonsense, Sarah; he's a man, ain't he? If he didn't make some difference he wouldn't be. We'd better go along." And they went along, without any violent protestation from the young man.

There was no fresh yellow fever news yesterday; but the Health authorities are preternaturally busy and are the hardest-worked men in town, using up reams of paper and barrels of ink in orders, counter-orders and every other way calculated to make things lively for everybody concerned. Such zeal deserves a pat on the back, which we hereby give, in the gentlest way. This is no weather for hearty slaps on the back.

Hurrah! One of the English Literary Society excursionists has promised us a description of the splendid collection of fossils Dr. Holmberg has got together in the La Plata Museum.

The cheapest and coolest breakfast in town is to be had at the Creamery, "Under the Punkahs." "Unter den Linden" at Berlin is nothing to it for coolness; neither are cucumbers.

The porters in the public schools of the city have 'approached' the Board of Education with a petition for increase of wages, as they cannot keep either body and soul or boot and sole together on what they are paid at present, as it does not even distantly approach their indispensable domestic expenses.

The last number of the *Cratch* is excellent, and contains a very nice illustrated article on the Jubilee Exhibition of St. Andrew's Scotch School, which all who take interest in that most useful institution should make it a point to read, especially all the charming little girls who took part in the "funcion."

Dr. Carballido's little bill for his trip to Catamarca as Interventor only amounts to $1900, although Government give him $3000 to spend. This is the cheapest bit of Intervention on record in this country.

The Lord Mayor paid a peep-o-day visit on Thursday to all the "conventillos" on Paseo de Julio, and, "mirabile dictu," found them all tolerably clean. This shows that the parochial health inspectors are doing their duty.

Letters from La Plata say that there is so much drilling, drumming, bugling and bellicose preparation going on in the mushroom city that many timid families are preparing to pitch their tents in some more tranquil quarter.

Something for the ladies. Buttermilk is said to be one of the best of cosmetics, and an almost certain cure for freckles, tan, sunburn, &c. It should be applied at night, just before retiring, and carefully sponged off in the morning with clear, warm water. Two or three such applications will leave the skin as soft as satin.

The La Plata Senate long debates, which of the two to choose, quorum or no quorum. Thrice consecutively their voice has been for the latter, and will probably be so again on Monday next. Meanwhile the precious Budget is not yet made law, thanks to the Senatorial aversion to public business.

Rector Fitzsimons's report of the National College in Uruguay shows that establishment to be even worse

THEATRES.

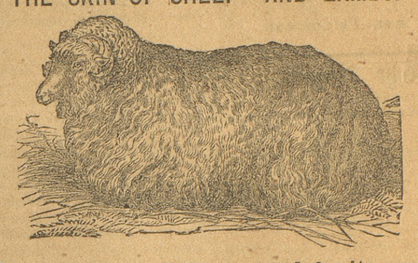
Hayward's Paste Dip
For the CURE of SCAB
AND DESTRUCTION OF ALL FILTH INFESTING THE SKIN OF SHEEP AND LAMBS.



Time, Labour and Money saved by its use.
Messrs. Moore & Tudor, Maipu 163, B. Aires.
Chascomus, March 23rd 1891.
Dear Sirs—
"I have tried HAYWARD'S "PASTE" DIP on my Sheep, and have pleasure in bearing testimony to ITS EFFICACY AS A DIP. I need have no hesitation in recommending it generally as a Cure for Scab, without discolouring or damaging the Wool.
The "PASTE" is in my opinion preferable to the Powder, and will probably have a larger sale than the latter."
Yours very truly
(Signed)
JOHN KELLIE.
It has been proved by many important Estancieros that HAYWARD'S PASTE is more convenient to use than any other Dip, being already mixed and dissolving in any kind of water. It makes a smooth soapy bath which adheres well to the Fleece and leaves the wool clean and soft.

ON 'CHANGE.

Friday, Jan. 8th.

The blasting heat may account for the exciting rumors going round the market. People talk of impending disturbances as a foregone conclusion. It was known at a late hour yesterday already that something was brewing in the War Office; all the troops were quartered, the guards strengthened; orders were imparted to some war vessels to light fires and be ready. Then a report came from the Government House that something had gone wrong in Rosario. The only truth in all these rumors was that the War Office had adopted great precautions to avert some "coup de main." The market opened this morning under the influence of all this gunpowdery news, but the success of the conciliation policy between Roquistas and Mitristas, ratified by their clubs last night by a sweeping majority, inspired better hopes in the future and counteracted the effect of all the revolutionary rumors rampant in the hall.

It is understood that the success of the conciliation policy is the death-knell of all the hopes of the Radical Party. It is apprehended that in view of such a situation the doomed party will resort to violence, not that it centres any hopes in the success of a subversive movement, but from a conviction that under the ominous threat of armed commotion some compromise may be arrived at whereby utter annihilation may be avoided. These are the opinions of the leading politicians at the ring, and many of these financial Metternichs are of opinion that rather than risk the issue of an armed contest the conciliation parties will come to some agreement with the Radicals, who up to the present have been left out in the cold. Rightly or wrongly, the gold market does not reflect the excited state of the public mind; people who entered the hall this morning were prepared to see gold rush to $65 per ounce, and great was their astonishment when they saw the market stick hard at $61, refusing obstinately to go any higher at the first ring. It was quite plain that the gold premium attached little importance to the revolutionary scare; this may spring from the intimate conviction of the market that any attempt at revolution would be immediately nipped in the bud. Nobody believes for a moment that a subversive movement could count with any sympathy; it would be doomed to succumb at the very outbreak; hence, no doubt, the apathy of the market in spite of the nervous tension of individuals who hang their heads, shrug their shoulders and spread the terrific report that the revolution is at hand and we are all standing on a volcano.

In the midst of all this political, as well as artificial, ferment the conservative elements of the country unite and hold together to prevent the chaos that must arise from any wide-spread anarchy of opinions and purposes. The whole market greets the "modus vivendi" of the conciliation policy and trusts that that agreement sealed in the political clubs last night will prove a harbinger of a strong, honest Government—it matters little whether Roquista or Mitrista. The market is tired of commotion in politics and finances; it sighs for a respite, and this it expects from the conciliation and its promise of six years steady, economical Government. The only regret is that the change cannot take place immediately and entail with it the abolition of the Banco de la Nacion Argentina and its issue of fresh paper money. Remove the political cloud, abolish this new Bank, and our economical Government could again shunt the country's finances on the right track; this is the opinion of the conservative elements; and pity 'tis that such prospects are still remote, nearly invisible on the dim horizon of this new year.

Seventeen thousand ounces changed hands at the first ring; the price opened at $60.70, rose to $61, and closed hard at $60.90. One hundred sovereigns were sold at $18.90. The closing rates show a premium of 274/5% on ounces and 275/8% on sovereigns. The market ruled very firm and very steady all morning, but the pessimistic expectations of the bulls were not verified. Speculators on the rise of gold thought that the premium would advance in leaps and bounds; they were disappointed.

Patriotic Bonds were dull and weak. Prices for cash opened at 58.50, fell to 58, and closed at 58.20; a large lot was thrown on the market for the end of the month, and this put down the price, which was at 58.70, to 57.80. Spanish Bank Shares figured at the old quotation—86. Catalinas also at 6.90, and unfortunate Constructora de Flores at 3. National paper Cedulas of Series A changed hands at 85. La Plata Cedulas looked slightly better, but the mild spurt does not bear any promise of continuing; F closed at 29.10, G at 28.70, K at 29.50, L at 28.80, N at 29.50, O ditto, and P actually jumped to 30.20. Our London friends must be buying the latter series; there is no other explanation of the sudden change in the market.

Mr. German Burmeister, so well-known in the consignatario gremio in this market, has been appointed Argentine Consul at Southampton.

Mr. Sigismundo Wolff was welcomed to-day on his return from Europe and enveloped in friends. He states that the feeling in Germany, and the Continent in general, is very strong against this country; they have even less confidence there than here, and this is saying much.

As many people are beginning to believe that there is no inclination on the part of the Board or of the Finance Minister to open the subscription to the capital of the new Banco de la Nacion Argentina, we beg to inform our readers on reliable authority that the subscription cannot be opened until the Board have discussed and approved the internal regulations of the Bank. It is, therefore, a mistake to suppose that either the Board or the National Government are inclined to maintain the new bank as a State concern "pur et simple." These internal regulations will be probably submitted to the Board of the Bank next week.

Some surprise is also felt at the sudden stoppage of discounts in this market on the part of the Board of the Banco de la Nacion Argentina. Some papers have actually gone so far as to state that the Caja de Conversion have run short of their immense stock of paper money; there is no fear of such an eventuality. The fact of the case is that the Board of the Bank has stopped discounting there in order to increase discounts in the many branches of the new bank in the Interior, in the riparian provinces and in the province of Buenos Ayres.

Exchange was a little firmer to-day. First-class francs were offered at 5.17 on Paris. Telegraphic transfers were done this morning at 48⅛d. on London. Sterling exchange at 90 days was quoted at 48⅛d., 49d. and a fraction higher. Discounts show little improvement.

The following is a summary of the business effected in stocks

The fine German steamer Darmstadt has arrived at Montevideo; among her passengers is Mr. Fernando Moog, the well-known architect who designed and superintended the construction of the monumental produce market.

The arrivals in the two wool markets this morning were under the average; in fact for several days past arrivals show a steady falling-off. Farmers are storing their wools outside, as they do not care to sell at current prices, and they believe in a rise in the gold premium. Meantime the news from Europe shews no improvement, and the result one witnesses in the abstention of buyers. The favourite French artists has backed out completely, as his limits do not allow him to operate. The Belgian buyer is resting on his oars, waiting for eventualities. German buyers, strange to say, show some interest in the article and have been operating of late. Operations this morning were very dull indeed; the situation was very heavy. In the South Plaza about 150 tons of wool changed hands.

Whilst leaving Montevideo the other night, in the midst of fog, rain, and wind, at 9 p.m., the favorite Platense steamer Eolo ran foul of H.M.S. Beagle. The Eolo suffered next to nothing, but the war-vessel sustained some slight injuries. The strong current and wind caused the mishap, which happened at the moment the Eolo was backing and had hauled up her anchor. Up to the present we have heard of no protest entered on either side. It is a mistake to leave the Mount so late at night in unfavorable weather.

The cheques of the Provincial Bank closed this afternoon at 38 % discount; those of the National Bank at 25¼% discount; those of the English Bank of the River Plate at 16 to 17 % discount. The Bonos of the La Plata Mortgage Bank were hawked about by the score thousand at 16¾—say 83¼% discount.

Freights continue in a weak condition. Shippers, however, think that once wheat falls to the limit of European orders the freight market will immediately react. Wheat up river is quoted at 31/ and 2/ more for loading at Colastiné. Bales are dull and weak.

The Hydarnes, of the Houston line, could not enter the Madero docks yesterday, owing to the low tide. These delays should impress on the Government the necessity of dredging the Riachuelo channel at least two feet deeper. The steamer in question was drawing only 21 feet.

The Lamport and Holt steamer Heverlius will be out of quarantine to-morrow. The only sick person on board is a lady suffering from toothache. Thus the steamer escapes the 10 days' quarantine. The first members of M. G. Mulhall's new edition of the Dictionary of Statistics come in the Hevelius.

The Montevideen Health Board have at last declared Rio Janeiro an infected port. Had the Board not made this declaration, under the provisions of the International Sanitary Agreement between Brazil, Uruguay and Argentina, the Argentine Government would have been obliged to quarantine all vessels from the Mount. Diplomatic pressure had to be brought to bear on the Uruguayan Health Board.

The gold market ruled very steady at the second ring; after a pitched battle between bulls and bears the former gained a slight advantage. Sixteen thousand ounces were sold for to-morrow; the prices opened at 61 and closed at 60.90. Fourteen hundred sovereigns were sold at 18.90 and 18.95, closing rate. Patriotic Bonds remained steady at the morning's closing rates. A few National Bank Shares were sold at 204, an advance of ½. National Cedulas A were steady at 85, and C at 69—a low quotation for the stock. La Plata Cedulas barely held their ground; the situation was heavy and weak; Series P dropped to 29.90.

The following is a summary of the business effected in stocks and shares to-day at the second ring:—

South American Ounces—
Jan. 9th .. 15,598 at 61-60.90.

Sovereigns—
Jan. 9th.. £1,400 at 18.95-90-95.

Patriotic Bonds—
Jan. 9 ..... 50,000 at 58.20.

Constructor Flores—
Jan. 9 ..... 100 at 3.

National Bank Shares—
Jan. 9 ..... 50 at 20.50.

National Hypothecary Cedulas—
Jan. 9 ...A 12,900 at 85 paper.
Jan. 9 ..C 6,000 at 69.

Provincial Hypothecary Cedulas—
Jan. 9 ..M 6,000 at 29.40.
Jan. 9 ..N 14,000 at 29.40.
Jan. 9 ..O 16,500 at 29.30-40
Jan. 9 ..P 57,000 at 30-29.90

All kinds of absurd rumors were floated on Change this afternoon to put up the price of gold, but the market was too wide-awake, and not even a reported revolution in La Plata could induce the ounce to rise beyond $61. It looked as if some of the heavy bullish dealers were letting go their holdings to-day.

The fine Platense steamer Pomona, which is again under the command of Captain Bolland, leaves the Boca at 10 a.m. on Sunday for Bahia Blanca and Patagones, with a cargo of Decauville railway plant for the Rio Negro Salt Company in the latter port. The Pomona will load 600 tons of salt and some wool at Patagones. The Platense Company have now two steamers plying between this port and Patagones, which shews how the south trade is increasing. The carriage of salt is in itself a very important item, the article commanding a ready market here. The "barracas" in Patagones are, moreover, full of produce.

The Argentine torpedo catcher Rosales is under orders to steam for Mar del Plata and await orders at that port. A colleague states that arrangements have been made for a daily direct train service between Mar del Plata and La Plata.

The returns of the Custom House today amounted to

Imports	$242,906 58
Exports	86,055.31
	$329,001.89

	Gold.	$ m/n.
Returns of the year up to date	—	1,242,978.77
Same time last year	391.50	1,408,353.70
Difference in favor of Jan. 1891	391.00	165,374.97

The Minister of Finance has fixed the rate of gold at 360 for to-morrow for payment of Customs dues.

Passengers arrived per s. s. Liguria: Mr. H. O. Heyworth, Mrs. Bowden, Mr. and Mrs. C. E. Cullen, Mr. Roth, Mr. and Mrs. Maitland Shaw and maid, Mr. and Mrs. E. A. White, Mr. Charles Hardy, Miss Hardy, Miss Young.

Telegrams from Rio quote exchange on London at 12¼d.

The following sales of wool were reported in Montevideo yesterday:—

5,000 arrobes segunda buena at 24½ rls fleece in barraca.

1500 arr. primera buena at 25 to 27½ rls.

3500 do segunda buena 24 to 25 rls.

Lamb's wool at 16 and bellies at 12 rls.

The cable steamer Norseman was sent from Rio Janeiro to help the steamer Viking in raising the cable between Rio Grande and Montevideo. The cable was picked up after much trouble in the waters of the Cluy: it was buried three feet deep in sand.

The fast Italian steamer Nord America left Genoa on the 3rd inst. for the Plate.

The Pacific steamer Liguria landed 58 passengers for Montevideo and Buenos Ayres; there were 53 passengers booked for the West Coast.

Prices of sheepskins and hides—

LAIDLAW'S

Tobacco Powder

Laidlaw's Tobacco Powder has many advantages over **Arsenic Powders and Pastes** for curing Scab.

Laidlaw's Tobacco Powder has none.

Arsenic Powders and Pastes are very dangerous and in many cases large lots of Sheep, Cattle and Horses have been killed by them.

Laidlaw's tobacco Powder has no bad effects on either Sheep or men applying it.

Laidlaw's Tobacco Powder costs less than Arsenic Powders and Pastes, is always of one uniform strength and can be relied upon with perfect confidence, and does not injure the wool, but on the contrary improves the quality and increases the quantity.

ARSENIC POWDERS AND PASTES
Dry and burn the wool, and diminish the quality and quantity.

Testimonials from many of the principal Estancieros can be seen on application to th

Sole Importers -

MACKILL, MURRAY & CO.
345---Balcarce---345
Buenos Aires.

At the Estancia Grande, the property of GEORGE BELL, there are always on Sale Clydesdale and Cleveland Stallions, Durham Bulls, and Lincoln Rams, also Potros suitable for carriages and heavy draught.

As all animals offered for sale at this Estancia are by stallions, bulls, etc., imported direct from England by the owner, it would therefore be advantageous for intending purchasers to inspect the same before purchasing elsewhere.

Nearest Station (under a league from the Estancia) EMPALME PEREIRA F.C. a La Plata from whence animals can be despatched to any part of the Republic.

Animals of the same breeds are obtainable at the Estancia La Favorita. Apply to the Mayodomo, Almacen En Suiza, Carrera Tandil a Necochea, or to Hotel Dhees, Tandil; also at Estancia Santa Catalina. Apply Mayordomo, San Jose de la Esquina, F.C.O.S. Rosario.

Only Address in Buenos Ayres — Venezuela 1062.

DR. J. COLLIS BROWNE'S
CHLORODYNE.
The original and only genuine

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous system and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, etc.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medecine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent, we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation dury many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman "Times," July 13, 1864, was deliberately untrue, which he regretted to say, had been sworn to.—See the

Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

CAUTION.—Beware of Piracy and Imitations.

Sole Manufacturer—J. T. DAVENPORT, 33 Great Russell Street, Bloomsbury, London

VICTORIA CONVALESCENT HOME

Sunnyside, near Lavollol,

F. C. del Sud.

Hon. Medical Officer—
Dr. MACKERN, Tucuman 571.
Superintendent—
Mr. CARSON.

Patients are received on Tuesdays and Fridays, and a carriage will be at Lomas Station to meet the train which leaves Plaza Constitucion at 4.30 p.m., so as to convey them and their luggage to the Home.

Private patients pay $5 per day; ordinary patients $2 per day.

Recommendations for free orders can be obtained from any member of the Committee, but applicants must prove that they have no means wherewith to meet the ordinary charges of the Home.

To obtain the order for admission, a recommendation must be taken to the Hon Medical Officer, accompanied by a note from the patient's doctor certifying that it is a case coming within the rules of the Institution.

Visitors are allowed to see their friends on Wednesdays and Sundays from 1 to 5 p.m., and for their convenience a Brake belonging to the Institution will on every Sunday afternoon be waiting the arrival of the 2.11 train at Lomas, (train leaves Plaza Constitucion at 1.45 p.m.) and take them to the Home and back free of charge.

Subscriptions and donations in aid of the funds of the Home will be thankfully received by the Honorary Treasurer.

LA TURQUIA

Maers and Fishbein, London.

Calle San Martin 272 and Lavalle 1212

Rich assortment of legitimate Turkish cigarrettes and tobacco, the only kinds that do not injure smokers, being recommended by the most illustrious physicians in Europe and this country.

Whoever desires to preserve his health should smoke exclusively our tobacco, which is more aromatic and more palatable in comparison than any other. Dr. Pirovano says in his letter of 23rd December 1891 about our tobacco.

"Your tobacco is less prejudicial to the health than any I have yet tried."

Now Opened.

Buenos Aires, 31st December 1891.

Gentlemen,

After having been in the employ of Messrs MAC CALLUM and Co. and GATH and CHAVES, I have decided to start in Business on my own account.

Owing to the experience I have had in the River Plate, I have every confidence in inviting you to inspect the large and varied Stock of Shirts, Ties, Gloves, Pyjamas, Underclothing, etc., received from the principal manufacturers in Europe, feeling confident that I can supply you with a first class article at a very reasonable price, even in these times.

I ho e to receive shortly an assortment of Felt and silk Hats, also a large quantity of English Games. Special orders from Clubs for complete outfits on advantageous terms. First Show-Day will be January 6th.

Soliciting the favour of your kind support.

I Am,

Yours respectfully,
JOHN HENRY FRENCH.
